—Fresh groceries at Leslie Bell's.
—Lung Protectors at Thaxter's Drug Store.
—For cold feet, get a Hot Water Bag at Thaxter's.
—S. C. Wright has gone below to attend Joe Cowen's funeral.
—Real estate men from below are spying out the land in Nevada.
—The owner of the Little Louisiana Lottery was in the city yesterday.

—C. H. Stoddard of the State Agricultural Society was in the city yesterday.
—The House has voted \$36,000 more to cover deficiencies for the Carson Public Building.

—Dorsey Noteware, after a three months' trip through California, comes back to Carson well satisfied with this State.

—The indiscriminate naming of half-breed Indian children after prominent citizens is liable to lead to considerable trouble of a domestic nature ere long.—Gazette.

—The Molly Maguire organization has sprung into life again in Pennsylvania, to drive out non-union labor. The bloody fate of the leaders of that organization, and the infinite harm they do to the cause of labor, seem to be forgotten.

—Frank Pixley is abusing Blaine and defending Bob Morrow. This is probably because he believes Blaine to be as bad as he believes Morrow good. A man afflicted with such peculiar cross-eye as this can hardly be found anywhere else but in San Francisco.

—My little son, three years of age, was terribly afflicted with scrofula. His head was entirely covered with scrofulous sores, and his body showed many marks of the disease. A few bottles of Ayer's Sarsaparilla cured him.—W. K. Becket, Hymara, Ind.

—At a meeting of the Board of City Trustees last evening it was decided to contract with the Electric Light Company for three electric light towers to be placed on Carson street, at the rate of \$25 a month for each light. The Capitol Commissioners will also have a light put in the Capitol grounds.

—It is said that the ambition of the life of Mme. Boucicault, the great Paris shop-keeper, was to receive the Cross of the Legion of Honor, but she always refused to intrigue for it or to buy it, hoping to earn it. The recent scandals, showing how empty was the honor she sought, were a great blow to her, and she at once gave up her longing for the decoration.

—The Citizens' Committee of New Orleans has addressed to the Legislature of Louisiana a remarkable paper. It is a clean, calm demand that some ten thousand names fraudulently upon the register be stricken off, since they are used to negative 10,000 genuine votes of black men. The committee asks that no extraordinary measures be taken, but simply that a new registration be ordered. After that, it is proposed by the committee to see to it that fair, free voting and honest counting is done. It would not seem possible for a reasonable objection to be made to the petition. Certainly the Democrats of New Orleans do not wish to be understood as desiring fraudulent elections, miscounting, destruction of ballots, coercion and intimidation. It is scarcely probable that they are prepared to defend these means to even a Democratic victory. Yet a fraudulent register enables all of them to be employed.

DR. HARMON.

His Brazilian Pebbles Still in Great Demand.

It is more than probable that Dr. Harmon, the oculist, will not get what he terms "skunked" (three days without business) in Carson. Yesterday he supplied twelve people with spectacles and glasses. It is his firm intention, however, to depart for Virginia City on Sunday next, so people troubled with weak eyes had better take advantage of the opportunity of testing his wonderful optical machinery, as well as viewing his large and superior stock of Brazilian pebbles. His rooms are located in the Ormsby House.

KILLED THE DOG.

Curious Freak of a Bicycle Rider.

Yesterday, on Carson street, an Appeal compositor was skimming along at a terrific pace, with a lunch bucket on the arm of the bicycle. He was poised in an absolutely correct attitude, the wonder of the men and the admiration of the girls, when suddenly a yellow dog attempted to cross the road ahead of him.

Either the dog had miscalculated the speed of the wheelman, or the wheelman had failed on the dog combination, for the wheel struck him square amidships and cut him down. The party on the 'cycle turned a complete somersault, and there was a pin-wheel spin of compositor and Columbia bicycle, lunch bucket and dog. The air was filled with the feet of the printer, a shower of pickles and pie, and disintegrated machinery.

The howl that went up from the sidewalk shook the street for two blocks. When the rider hit the ground he came down on the dog and squashed the wind out of him. The dog expired at 2:30.

THE ELECTRIC LIGHT.

The Plant Being Rapidly Put in Place.

Everything necessary to put the electric light in working order is now at the Box Factory, where a new building has been erected to receive the engine and dynamos.

A good many people visit the place to inspect the curious machinery, which is so odd and complicated that it is almost impossible to so describe it as to give any idea of what it looks like or how it operates.

The lamps and apparatus, carbon points, etc., are also there, and come in for their share of curious inspection. The wires are being strung along the streets, and before long the full glare of the beautiful light will be turned on and mark another step in the prosperity and progress of the city.

A Postal Clerk's Duty.

It is a common thing when one hands a letter to a postal clerk just as a train is pulling out from the office to coolly inform the party with the letter that he is not obliged to take letters that way. James Wilder, Superintendent of the Pacific Coast Division of the mail service has just issued the following order:

All Chief Clerks will ascertain if possible the name of any and all postal clerks who have refused to accept letters on the trains as there seems to be an impression among clerks on some lines that an order has been issued to the effect that mail matter should not be received at the cars for mailing. Any information relative to the source from whence such representations came will be thankfully received by me that it may be properly treated to the end that the service may not suffer by such reports. See Section 978 P. L. & R. of 1887.

The Carson Academy.

The Synodical Committee has decided that the institution to be established at Carson City by the Presbyterian Church shall be an academy of high grade. A plan was adopted and a sub-committee appointed to secure the building site by payment and deed. A favorable report is expected upon this matter in a short time. It is the purpose when circumstances justify, to develop the academy into a college.

Syrup of Figs

Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.

Roll of Honor.

Pupils in the Carson High School whose average is 5, and who have been neither absent nor tardy:

Carrie Belknap	Sam Wright
Annie Olcovich	Sybil Simpson
Cherrie Bender	Josie Brulin
Edith Atherton	Ella Thorne
Blanche Atherton.	

LAND MATTERS.

A New Rule in Homestead, Pre-emption and Commutation Cases.

The following letter has been issued to the various land offices; DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE, WASHINGTON, D. C., Jan. 31 '88. Register and Receiver, San Francisco, Cal.—GENTLEMEN: In all final homestead, pre-emption and commutation cases hereafter, where final proof is made subsequent to the date advertised, and within a reasonable time, and the delay is caused by circumstances beyond the control of the claimant, the proof being in other respects satisfactory, you will require the claimant to file his affidavit, duly corroborated setting forth in full the cause of delay. Also require the certificate of the officer before whom the proof was made, setting forth whether any person appeared on the day advertised, or at any other time, to protest against the claim; and you will furnish a similar report.

You will then transmit the papers in the case to this office, to be considered on equitable principles. See case of Michael Geraghty, January 16, 1888.

Very respectfully,
S. M. STOCKSLAGER,
Acting Commissioner.

Heretofore, if a settler failed to make final proof on the exact date advertised, he was obliged to re-advertise for two months, and then go to the land office a second time with his two witnesses. This rule often worked a hardship to settlers. Cases of accident or sickness often made it impossible for the settler to be at the land office at the precise date required. By the new ruling, if causes beyond the control of the claimant prevent his making final proof at the specified time, he may obtain an extension of time.

PACIFIC COAST ITEMS.

—The murder of the Indian Antone de Hus at Tia Juana has been traced to another Indian, named Quatre.

—John Giblin of San Francisco dropped dead at San Rafael yesterday. He had been an invalid for some time.

—Dr. A. W. Berg has been convicted of blackmail at Portland, and sentenced to the Oregon Penitentiary for two years.

—J. W. Hawkins of Santa Rosa, left home Tuesday to go gunning, and a few hours afterward was found dead. It is supposed he was accidentally killed.

—Libel suits have been commenced at Los Angeles by H. W. Boyce against the Los Angeles Times, the San Francisco Chronicle and C. J. Richards, aggregating \$150,000.

—The excitement at Salt Lake over jumping Arsenal Hill lands is not abated. The jumpers took up all the remaining tracts Tuesday. Salt Lake City has a patent to her land and proposes to hold it.

—A jury was secured in the damage suit of E. T. M. Simmons against the Southern Pacific Company at Salinas Tuesday and all the plaintiff's direct testimony taken. Simmons was accused of setting fire to the Del Monte Hotel at Monterey, but was acquitted by a jury.

The Most Agreeable

As well as the most effective method of dispelling Headaches, Colds, and Fevers, or Cleansing the System, is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs. For sale by Geo. C. Thaxter, agent.

Is This True?

The Reno Gazette says: The cold weather killed thousands of thousands of rabbits in Eastern Nevada. These it is asserted, have been scalped by the painstaking and frugal rancher and a bounty claimed on them.

House For Rent.

House of five rooms, desirably located, partially furnished. For particulars address: "House," this office. jan24 *

—No other medicine is so reliable as Ayer's Cherry Pectoral, for the cure of coughs, colds, and all derangements of the respiratory organs. It relieves the asthmatic and consumptive, even in advanced stages of disease.
